

# Super Son!Q versus Son!Q

## DOPLAR™ TEST

**Super Son!Q**  
 NRG™ Hybrid Reactive  
 3000-grit Abralon®  
 Centripetal™ HD Core

→ **Super Son!Q**

Laydown: 24.96  
 Launch Angle: -2.45°  
 Break Point: 44.56'  
 Impact Point: 15.41

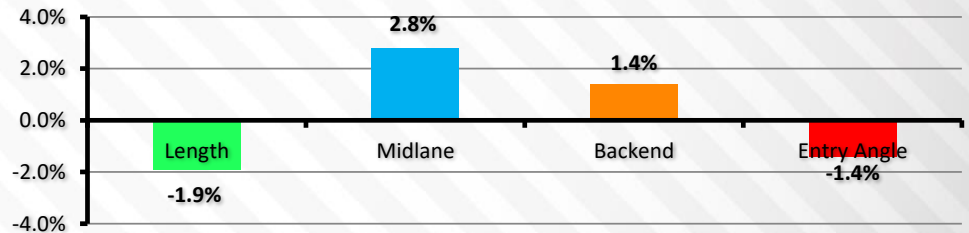

**Son!Q**  
 R2S™ Pearl Reactive  
 1500-grit Polished  
 Centripetal™ HD Core

→ **Son!Q**

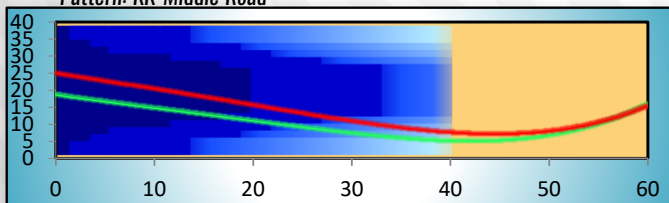

Laydown: 18.59  
 Launch Angle: -2.00°  
 Break Point: 42.11'  
 Impact Point: 15.77

- The Super Son!Q digs deep through the oil to maximize traction.
- NRG Hybrid matched with the Centripetal HD reads the midlane aggressively.
- R2S Pearl slides easily to the breakpoint.
- For both balls, the Centripetal HD Core offers constant continuation through the pins.
